Yildiz Cokcoskun aka Dj Negma was born and raised in Istanbul, Turkey. From a young age she followed music and in the 80s she became greatly interested in house music. She began listening to the beats and paid great attention to the detail and in time started practising to dj herself. From then she organised her own events at different clubs around Turkey. But this did not satisfy her love for house music and finally her inner drive to play in the clubs, pushed her enough to give it a try herself. She played in Istanbul, Bodrum and Marmaris for various house partys and dj organisations. She earned a great reputation at these partys and in 2001, Negma became a Professional dj, playing at Orange Club.

In 2004 Negma started to play in bigger events, attracting great attention from her great variety of house styles. DJane Negma grew to one of the top female DJs in the Turkey the last 5 years. Her sets contain every style of house and her music style is always happy and colourful just like herself. Positive energy is easily heard in her music. Not only was Negma succeeding in her dj career, but she also graduated from Istanbul University Computer Engineering. Also she will go to sound engineering school. She is a technical talent so she is learning new technologies quickly.

She was first know in the dj world as 'Jelibon' but after a visit to Egypt she changed it to Negma. The reason being it has the same meaning as her birth name, Yildiz, which when translated to english means Star.

In more recent times she has had the opportunity to play in many countries including Miami, Ibiza, Paris, Germany and Cyprus and has also found herself warming up and working along side some of the worlds leading names in the industry such as Marco V, Randy Katana, Johan Gielen, Outwork, Junior Vasquez, Sean Tyas, Alex M.O.R.P.H, Ronald Van Gelderen, Jochan Miller, Sied Van Riel, Yahel, Ernesto & Bastian, Aly & Fila, W&W, Leon Bolier, Mark Norman, Pedro Del Mar, Sander Van Dien (First State) Joyce Mercedes, Niki Belucci, LayDee Jane, Miss Shiva, Nugen.

Negma also produces and remixes her own tracks. This has also been very successfull for her, especially with her remix of Katana - Feels Like Magic. Her style of music changes with the times which keeps audience fresh and coming back for more.

Currently her efforts are being put into various productions along with friend and fellow dj, alex\_turkey, which will be ready for release in the near future. Now OUT !!! Negma feat. Aaron Smith - Dancin (Summer 2009 Mix) on Junodownload.
